

1963 Corvette: Chevrolet Parts and Accessories Bulletin: Delcotron Generator Replacement Parts

Subject: Delcotron Generator Replacement Parts
Model and Year: 1963 Chevrolet Line
Source: Chevrolet Parts and Accessories Merchandising Bulletin
Bulletin No: PA 62 - 28
Date: September 25th, 1962

TO: ALL CHEVROLET DEALERS:

ATT: PARTS SALES MANAGERS

SUBJECT: DELCOTRON GENERATOR REPLACEMENT PARTS

As you know, the 1963 Chevrolet line of cars and trucks will carry Delcotron Generators as standard equipment.

To assure Dealers being in a position to service these Generators, we have developed an initial order form for both large and small Dealers.

Parts listed on the order form will be stocked in all Zone Warehouses, and availability will be excellent.

We are attaching the order form for your convenience in ordering, and request that, when completed, it be returned to the Zone Office, to the attention of the writer.

Very truly yours,

CHEVROLET MOTOR DIVISION

C.E. Keim,
Zone P&A Manager
