

# 1984 - 1996 Corvette: Service Bulletin: Cleaning and Lubricating Power Antenna Mast Sections

**Subject:** Cleaning and Lubricating Power Antenna Mast Sections

**Model and Year:** All Models with Power Antenna

**Source:** Chevrolet Dealer Service Bulletin

**Bulletin No:** 84-159

**Section:** 9

**Date:** July, 1984

TO: ALL CHEVROLET DEALERS

Periodic cleaning and lubrication may be necessary to assure proper radio and power antenna operation. The following procedure is recommended:

I. To clean (before lubricating) mast sections:

- A. Actuate antenna to full mast extension.
- B. Dampen clean cloth with mineral spirits.
- C. Wipe cloth over antenna mast sections removing any dirt.
- D. Actuate antenna through one complete cycle (retract and extend).
- E. Repeat Steps A through D at least two more times.

II. To lubricate (after cleaning) mast sections:

- A. Actuate antenna to full mast extension.
- B. Dampen clean cloth with oil - GM 9981712 (i.e. light sewing machine oil).
- C. Wipe cloth over antenna mast sections evenly distributing oil over mast sections surfaces.
- D. Actuate antenna through one complete cycle (retract and extend).
- E. Repeat Steps A through D at least two more times.
