

1984 - 1986 Corvette: Service Bulletin: Power Steering Fluid Cooler

Source: Chevrolet Dealer Service Bulletin

Number: 86-237

Section: 3B

Date: April, 1987

Subject: Power Steering Fluid Cooler

Model Year: 1984-1986 Corvette

TO: ALL CHEVROLET DEALERS

A service kit, P/N 10080769, has been developed for installing a power steering cooler on 1984-1986 Corvettes.

Usage of this kit is intended for those vehicles that are utilized in a competitive application where elevated power steering fluid temperatures may be generated.

These kits are currently available from GMSPO and include in addition to the cooler, all mounting/plumbing components required and installation instructions.
