

2011 Corvette: GM TechLink: Corvette Convertible Windscreen Installation

Source: GM Techlink

Date: July 2011

Subject: Corvette Convertible Windscreen Installation

Models: 2011 Chevrolet Corvette Convertible

The installation steps for the Accessory Windscreen (part number 19156012) on the 2011 Corvette Convertible have been revised. An update to the trim bezel fastening system will require new steps to fit the existing components to the vehicle. The left and right trim bezels must be modified when installing the windscreen. (Fig. 13)

FIG 13

Additional installation information can be found in #PI0476 in the Service Information. It supplements the installation sheet that accompanies the windscreen. Use the information in #PI0476 along with the installation sheet when installing the windscreen.
