

1992 - 1993 Corvette: ECM Codes

- Code #12: Normal No Codes.
- Code #13: Left Oxygen Sensor Circuit.
- Code #14: Coolant Temperature Sensor Circuit High.
- Code #15: Coolant Temperature Sensor Circuit Low.
- Code #16: Opti-Spark Ignition Timing System.(Low Pulse)
- Code #21: Throttle Position Sensor Circuit High.
- Code #22: Throttle Position Sensor Circuit Low.
- Code #23: Intake Air Temperature Sensor Circuit Low.
- Code #24: Vehicle Speed Sensor Circuit.
- Code #25: Intake Temperature Sensor Circuit High.
- Code #26: Quad-Driver Module #1 Circuit.
- Code #27: Quad-Driver Module #2 Circuit.
- Code #28: Quad-Driver Module #3 Circuit.
- Code #32: Exhaust Gas Recirculation Circuit.
- Code #33: Manifold Absolute Pressure Sensor Circuit Low.
- Code #34: Manifold Absolute Pressure Sensor Circuit High.
- Code #36: Opti-Spark Ignition Timing System. (High Resolution Pulse.)
- Code #41: Electronic Spark Timing Circuit Open.
- Code #42: Electronic Spark Timing Circuit Grounded.
- Code# 43: Electronic Spark Control Circuit.
- Code #44: Left Oxygen Sensor Circuit Lean.
- Code #45: Left Oxygen Sensor Circuit Rich.
- Code #51: Mem-Cal Error.
- Code #52: Engine Oil Temperature Sensor Circuit Low.
- Code #53: System Voltage.
- Code #55: Fuel Lean Monitor.
- Code #56: Vacuum Sensor Circuit.
- Code #61: Secondary Port Throttle Valve System.
- Code #62: Engine Oil Temperature Sensor Circuit High.
- Code #63: Right Oxygen Sensor Circuit Open.
- Code #64: Right Oxygen Sensor Circuit Lean.
- Code #65: Right Oxygen Sensor Circuit Rich.
- Code #66: A/C Pressure Sensor Circuit Open.
- Code #67: A/C Pressure Sensor Circuit. (Sensor or A/C Clutch Circuit Problem)
- Code #68: A/C Relay Circuit Shorted.

Code #69: A/C Clutch Circuit.

Code #72: Gear Selector Switch Circuit.
