1963 Corvette: Service Bulletin: Improved Vacuum Modulator

Subject: Improved Vacuum Modulator

Model and Year: 1963 Aluminum Powerglide **Source:** Chevrolet Technical Service Bulletin

Bulletin No: DR #568

Section: VII

Date: December 17, 1962

TO: ALL CHEVROLET DEALERS

An improved vacuum modulator system has been incorporated in the 1963 Aluminum Powerglide transmission effective at start of production at Cleveland and beginning with transmission code #T911 at Toldeo. Modulator parts are not interchangeable between old and new design. If service is required, replace parts must be same type as original equipment.

The old and new vacuum modulator systems are illustrated on the reverse side. Parts data is also included to enable the correct parts to be obtained in the event replacement is required.
